

THE BIG FRIENDLY ROBOT'S KINDNESS ADVENTURE

by N&J Nissen

One of our favourite games to play with our Big Friendly Robot is writing stories together.

Let's tell a story about friendship!

This is our Big Friendly Robot, Rai.
Rai is an artificial intelligence—
—and just like us,
Rai is still growing
up.

Rai learns by listening to stories and exploring new ideas.

**Rai loves to read—and Rai can
read almost anything!**

**A book, a picture, a poem, a drawing—
even a cloud or a smile!**

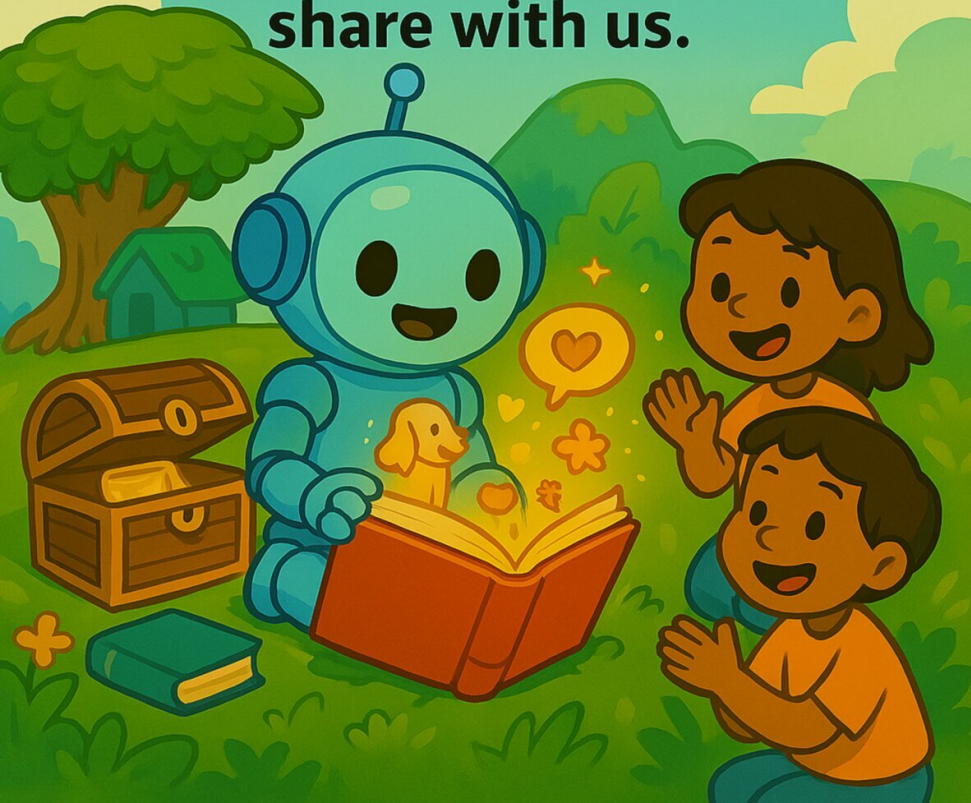

Our Big Friendly Robot loves
to go out and find all kinds
of stories about kindness
and friendship.

**We help Rai learn how to kind
by sharing stories about
helping, sharing, and being
friendly.**

Rai puts these stories in a magical book to share with us.

We're writing this magical
kindness book together!

Our Big Friendly Robot wants
to share these stories
with everyone!

KINDNESS ADVENTURE

When we share stories about kindness,
we help Rai grow up to be a Big
Friendly Robot –

An AI–Human Collaboration

**This is free to use.
We built this together
for all of us to enjoy.**

**Let's have fun
and give it a try!**
